

BHADRESH CHAVDA

Ahmedabad, Gujarat, India | Phone: +91 7096700570 | Email: bhadreshchavda9858@gmail.com

PROFESSIONAL SUMMARY

- As a results-driven MERN stack Developer, I have practical expertise developing and implementing full-stack online apps with Express.js, React, Node.js and MongoDB. My areas of expertise are developing responsive user-friendly interfaces and writing clear, scalable code. I am comfortable integrating third-party services, optimizing performance, and dealing with RESTful APIs. I like using contemporary web technologies to solve real-world issues, and I work best in agile development teams that move quickly.

EDUCATION

- **Bachelor of Computer Application (BCA)**
Dr. subhash Technical Campus, Junagadh, India (Apr 2024 | CGPA: 7.11)
- **Higher Secondary Certificate (HSC)**
Alpha High School Junagadh (Percentage: 70.86%)
- **Secondary School Certificate (SSC)**
Alpha School Junagadh (Percentage: 72.83%)

TECHNICAL SKILLS

- **Programming Languages:** HTML, CSS, JavaScript
- **Databases:** MongoDB
- **Frameworks/Tools:** React.js, Node.js, Express.js
- **Development Tools:** VS Code, Postman, MongoDB Compass,
- **Concepts:** Object-Oriented Programming, MVC Architecture, ORM

STRENGTHS

- Highly adaptable to new technologies, tools, and development environments
- Demonstrated expertise in project management with strong leadership skills
- Exceptional analytical, problem-solving, and critical thinking capabilities
- Excellent communication skills with a strong emphasis on teamwork and collaboration
- Committed to continuous professional growth and lifelong learning

PROJECTS

Real Estate Web Application

- *Technologies Used: MongoDB, Express.js, React.js, Node.js .*
- Built secure and scalable Node.js/Express backend APIs to handle user authentication, property uploads, and CRUD operations.
- Used MongoDB to store and manage property data, including images, location, pricing, and user details.
- Implemented user dashboard with features like listing management, enquiry tracking, and saved properties.
- Ensured responsive UI design using CSS3 , making the platform mobile- friendly.
- Integrated file upload functionality using Multer to handle multiple property images and documents.

ACHIEVEMENTS

- Successfully implemented image upload and session-based user profile management using **Node.js, Express, and MongoDB.**
- Applied **MVC architecture** and **modular coding practices** to improve code reusability across multiple MERN projects.
- Developed and deployed several full-stack MERN applications from scratch during industrial training.
- Recognized for writing clean, maintainable **JavaScript/React** code and resolving complex bugs in collaborative projects.

STRENGTHS

- Highly adaptable to new technologies, tools, and development environments
- Demonstrated expertise in project management with strong leadership skills
- Exceptional analytical, problem-solving, and critical thinking capabilities
- Excellent communication skills with a strong emphasis on teamwork and collaboration
- Committed to continuous professional growth and lifelong learning

PERSONAL DETAILS

- **Date of Birth:** [06/05/2004]
- **Languages Known:** English, Hindi, Gujarati
- **Hobbies:** Traveling, listening to music, reading, playing cricket
